How It Will Help Clay City.

A canning factory in Clay City will employ from 75 to 125 people daily, and pay them from four to five thousand dollars every summer for peeling tomatoes and handling fruit at the factory. It will turn out an average of one hundred and seventy-five thousand dollars' worth of canned goods annually. It is the only factory to which we can furnish both labor and raw material. It will pay out to our own people a million and a quarter of dollars every ten years for labor, vegetables and profits on investment. It will increase the population of the town and raise the price of town lands.

With little effort we can secure the best industry it is possible for us to get. And besides a canning factory is an A No. 1 paying investment.

Will the people of Clay City let this rare opportunity to build up their town pass by? Let us all pull together for greater Clay City.

Increased Railroad Assessment.

The State Railroad Commission in session at Frankfort has fixed the total valuation of the tangible property of the railroad corporations operating in Kentucky for the purpose of assessment and taxation for 1906 at \$63,902,683 00, an increase of \$2,783,260 00 over last year. The total mileage in the State is given as 3,445.92 miles, an increase of 71.73 miles over last year.

The mileage of the Lexington & Eastern remains 92.54. The assessment is fixed 773,820 00, an increase of but \$500 00 over last year.

Another Factory for Clay City.

A gentleman by the name of Wilcox and a son, spoke men of Dayton, Ohio, were in the city Saturday looking at the handle plant of the Mutual Handle Co. in view of purchasing the same and converting it into a spoke factory. They propose to manufacture all kinds of hickory spokes and all kinds of heavy oak wagon spokes too. This firm is said to have ample financial backing and is very anxious to locate their business in Clay City.

Occasionally one will hear the remark, "I wish I was out of this town," and then one feels like saying, "I wish you were" for a man who stands on the street corners chewing and spitting, telling obscene stories, cursing the town, finding fault with his grandmother because she was a woman, claiming that the merchants are a lot of thieves, that the lawyers and newspaper men would skin a man to a finish, and a whole lot more, is a nuisance and an abomination. Any town pestered with one or more such worthies would be justified in exercising cowhide authority on the bosom of their pants. No one is obliged to live where he is not suited. town, he would shut up and "go 'way back and sit down." If things don't suit you, move to where they will. A growler and sorehead in a town is an enterprise killer every time. It would pay a town to donate him \$5 and tell him to move.

Why is it that nearly everybody who attends church likes to sit in the end of a seat and hold on to it like grim death and every person who gets a berth in that pew must stumble over them. Well, we confess we do that sort of a thing. It is to get out quickly in case of fire. We want to be in position to make a quick get-a-way.

Some Advantages of a Canning Factory to Clay City.

First—It gives a home market and a cash price for our fruit and vegetables.

Second—Keeps our money at home, which is now sent abroad to buy canned goods.

Third—It makes our community a producer instead of a consumer.

Fourth—It diversifies our farming industry.

Fifth—It employs home labor.

Sixth—Properly managed it pays a good interest on the investment.

Seventh—It increases the real and rental value of our land and city property.

Eighth—By giving our boys and girls work it teaches them thrift and economy, thereby they become good citizens and assist in building up the community in which they live.

Ninth—It is but a nucleus by which some other industry will naturally follow.

Tenth—It makes our community largely self-sustaining.

Eleventh—It saves and consumes thousands of dollars' worth of fruit and vegetables that now go to waste.

Twelfth—A worthy, laudable enterprise employing many needy and deserving also putting much cash into circulation; enables our merchants to sell their goods for cash.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Thanksgiving.

The last Thursday in November is the day set apart by this great country of ours, (these grand and glorious United States) for "Thanksgiving day, a day wherein every man, woman and child should bow their heads in prayer to our Maker for the multitude of blessings which He has seen fit to bestow upon each and every one of us, though wicked and sinful we might have been all of our lives. He has been good to the sinners as well as to the saint, he has caused the rain to fall upon the unjust as well as the just, and yet how far we fall short of our duty to our Maker. A great many people, certainly misconstrue the object and purposes of Thanksgiving day. There are some who with gun and dog take to the fields to shoot the innocent and unsuspecting quail or dove; many others, for any kind of sport, fun or frolic, amusements of any nature, any

thing but the real purpose for which this day was intended. Some few have a different view and these will remain at home and talk, and discuss their neighbors, their faults and habits, not for a moment do they speak of the good traits of these friends and neighbors, but gossiping and tattling seem to be the ruling enjoyment of the day. Then there is a class, who well know the object and purpose of Thanksgiving day and this class though small, yes, very small, will respect this good day and spend it as the day should be.

All of the good people should meet at the holy sanctuary and there lift up their voices in prayer to their Master for the many blessings and comforts showered them and theirs. This class of people are few and far between, yet the good Lord will hear and answer these prayers. My dear young man, stop and reflect e'er you desecrate this great and good day. Celebrate it as it should be and as it was intended to be, a day of prayer and thanksgiving to our good Master for His goodness kindness to us through all of our lives. As the day rolls around we oft times reflect, when we see the youth of the country preparing for wicked and sinful sport that he intends to participate in, how greatly the meaning of this good day is misconstrued. Turn over a new leaf, young man, in life's history and vow to do so no more, but instead assemble with those who do know and who will always be found doing the right things at your church, and there in humble submission to His will, offer up to your good Master a prayer for His blessings.

Do not desecrate this good day

in the wicked and sinful way that you have been doing in the past, hold this Thanksgiving as a holy day.

The Same Over Here.

Did you ever see boys at school divide by "choosing up" and taking opposite ends of a long rope, set to with a will to see which side could outpull the other? What a heaving, panting, gritting of teeth and pawling up the earth for a firmer foothold. What faces of stern resolve, of undying determination. One would think them deadly enemies. Not at all. Let some other school challenge them to a pulling match and you would find all the late antagonists on the same end of the rope. Well, our primary belongs to the dead yesterday; from to-day forward we face the other school.—Paris Kentuckian-Citizen.

If the man who toils fourteen hours a day, wears overalls and checkered shirt, and his wife wears a poor quality of calico, how does it happen that the fellow who never works at all wears broadcloth and his wife wears seal skin.

Important Memorandum:—The paint is the most important factor in painting. A good paint is the life of the paint, and the sure way to get good paint is to buy it fresh and pure from the dealer's barrel, not from the ready-mixed paint can.
